

KRTA Form: Assistance Request

Date: 4/19/10

Proposed Trail Project Name: Williams – Fox Horseback Trails

Location: HWY-214 Cumberland River Tompkinsville, KY, Monroe County

Type Trail: Horseback

General description of project: (identify if it's a new trail or a connector trail, if connector, describe what trail it connects. Does the trail enhance the users experience by having a destination or purpose for travel? Why do you want the trail? Identify obstacles. How will the communities in the trail corridor benefit from the trail?)

2600 acres on the Cumberland River and Big Sulpher Fork. Bottomland and Ridge riding. Some land is leased for farming and can not have riding on it, but around it is okay. There is a F&W boating ramp with parking and a lane that leads to land adjacent that is suitable for vehicle and trailoring rigs parking and meeting place. Might be interested in a outfitter lease to offer horseback riding rentals. Have a nice barn and stalls at the site.

Trails are not defined, looking for a Horseback riding club to develop the trails, design the route, and maintain the trails.

Interested in a land use agreement with the State.

We live off site and are interested in an activity that would have people there to look after the place.

This is a prime location to activities that could include camping, fishing, water activities, and horseback riding, a very tranquil beautiful place, next to a ferry across the Cumberland River.

Land owner of proposed trail: Eric Fox Limited Partner
Address: 1106 Womack Ave Cookeville, TN 38501
Phone: 615-268-9980
email: EGFOXAND@POL.NET

Other land owners involved: Name, address, and phone #, N/A

Describe situation: Annexa Duff Williams - General Partner
320 Bury Place
Cookeville, TN 38501-4578

What has been done?

Describe organizational meetings, who attended, challenges, benefits, fundraisers, organizations involved? Met with Elaine Wilson and Melany Crawford

Who will construct the trail?

Is there a formal trail organization? If so, who is the primary contact? If not, who is responsible for moving the trail project forward? Describe what you envision or know: My desire is that the Horseback Organization we find will do so.

Whose trail standards will be used to build the trail?

Don't know

Who will maintain the trail?

Has a permanent owner of the completed trail been identified? Describe what you envision or know: Hopefully a Horseback Club or Organization.

What is your funding source?

We own the land and will allow horseback riding free of charge.

Has a timeline been defined for completion of the trail? Where is the project on that timeline now? N/A

What do you see KRTA assisting you with?

- Funding Resources
