

# TRAIL TOWN ASSESSMENT II

## THE TOWN

Program overview

## HERE ARE SOME TIPS TO HELP YOU GET STARTED IN ASSESSING YOUR TOWN'S TRAIL-USER-FRIENDLINESS:

1. Set a meeting date to organize interested residents, merchants, local officials, private landowners, state and federal landowners, tourism officials, chamber members, someone from the local/state trail organizations and the Trail Town task force. The event will be a good exercise for a leadership class.

2. Set a date (and rain date) to do a walking tour of your town. Meet at city hall and divide into teams of two or three people, distribute the Walking Tour Checklist and determine a time and place to regroup. Encourage the use of digital cameras to capture the existing amenities and items that need attention. In fact, assigning participant photographers is highly recommended.

3. Each team may wish to stop for a break mid-tour, to collect thoughts, record observations and begin to draw conclusions.

4. After a predetermined amount of time (two–three hours), depending on the size of your downtown area, reassemble all self-assessment teams to discuss general observations. What great assets does the town have that you would want to promote or enhance? What needs does your town have?

5. Prioritize your items that need attention and develop a plan of action to address them. Make sure someone is identified to take responsibility to move the plans forward. Assign someone to gather all self-assessment handouts and consolidate all answers and comments into a single report that can provide the basis for a long-term plan for the community. (Note: check “yes” in the checklist to indicate the Trail-Town-friendly answers. The more “yes” marks, the better positioned your community is to capitalize on the trail market.)

6. To promote communication and awareness, record your progress and keep your media outlets informed.

7. Invite local officials to help dedicate the new amenities that your town constructs or installs.

8. Revisit the summary report from time to time and add new projects when needed. The visitors and your residents will be most appreciative of your efforts.

Consider the following scenario as you complete the self-assessment and work to consider the questions from the visitors' perspective:

It's a beautiful fall weekend, and you decide to pack up the family and the bikes and head to your trail for a few days of biking. You have the trail maps and have decided to stay with friends who live nearby and have been

encouraging you to come explore the trail and its surroundings. You know your teenagers will want to stop frequently for food/drink, and you're glad that the map shows towns every ten miles or so along the trail. The weather is glorious and everyone is having a great time until the first tire goes flat and you realize the pump was left in the car! Luckily, the unfortunate incident happened right as you approach town. Everyone decides to head into the town for a resolution. What did you find? (Make note of any items not mentioned in the checklist that you find important.)

## WALKING TOUR CHECKLIST:

Make and distribute multiple copies for interested residents, merchants, local officials, landowners, state and federal landowners, tourism officials and chamber members. Go through the checklist and make the appropriate marks as you walk through your designated area of commerce or any areas you wish to make more trail-user friendly.

# WORKSHEET F

## Amenities Inventory

After the walking tour, use this amenities worksheet to solicit information from local user groups, city/county officials, state and federal land managers, parks and recreation, citizens, health officials, school officials, the main street development committee and the arts community.

**Purpose:** To inventory all existing amenities:

- Businesses that service trail users needs, such as:
  - o Bike shops
  - o Tack shops
  - o Stables
  - o Canoe liveries
  - o Repair shops (that service bicycles, ATVs, etc.)
  - o Outdoor clothing shops (boots, outerwear)
  - o Grocery stores, gas and food marts
  - o Medical facilities
  - o Post office or place where trail users can mail or receive supplies
  - o Specialty stores (locations that sell Kentucky Crafted items and KY Proud products)
  - o Antique shops
  - o Theaters
  - o Entertainment venues (music, art)
- Potential locations for the business types referenced above:
  - o Vacant buildings in the trailhead areas
  - o Vacant land in the trailhead areas
  - o A district area for those businesses
- Trailhead and rest stop, specify locations needed or in place:
  - o Benches
  - o Hitching post, bike racks
  - o Interpretive signage
  - o Lighting, water, electrical service
  - o Signage

*Note: It is highly recommended that you take photographs to include with the inventory. Ask a local photographer to photograph your assets. It is also recommended that you include distance from the trailhead in town.*

**Findings:** This inventory can serve as a guide for town planners and this committee for business growth to achieve Trail Town development. Written inventory must accompany certification process.

# WORKSHEET G

## Plan of Action

**To:** All members of the committee.

**Purpose:** Record a plan of action to develop all discussion points and projects into a Kentucky Trail Town plan.

### **Addressing items from Assessment II:**

- Determine where and when work needs to be done per topic as well as who will do it and when it is to be completed.
- Integrate how you can communicate local history, culture, arts and agriculture into the trail experience.
- Address the following topics in your plan summary:
  - o Agree upon the desired goal
  - o The who, what, when, where and how aspects:
    - What agency, department, business, person(s) need contacting
    - Volunteer support
    - How to achieve desired goal
    - Locations affected
    - Funding sources
  - o List methods of communicating the desired goal to the community. Be it by adding something to your planning and zoning strategic plan, economic development plans, ordinances, community meetings, newsprint, etc.

**Findings:** Your committee will work off this document to achieve the desired changes and additions to become a Kentucky Trail Town. Once an item is completed, record that date. This process is an ongoing tool to help guide your town's future development as it relates to recreational trail activity and economic growth through the tourism industry.

Once certification is achieved, the town must maintain its goals and services to continue to be marketed as a Kentucky Trail Town. The plan of action must accompany material submitted for certification.
